

Spider Web Design Worksheet

In the space below, sketch a picture of your ideas for a new web design.

Observe and sketch several of the different designs from your classmates.

Observation:

Were any of your classmate's webs similar? What features did they have in common?

Hypothesis:

Which web design do you think will capture the most prey?

Why do you think that web will be the best at capturing prey?

Web Creator	Web Description	Number of Prey Captured:
Me		

Data Collection:

Conclusion:

Which web performed the best (captured the most prey)?

What features did the best web designs have in common?

How did those features improve those web designs?

Based on the data you collected, do you accept or reject your hypothesis?
